

Stargard

Handrail and balustrade system
DISABLED ACCESS APPLICATIONS
FOR RAMPS AND STAIRS, BOTH
INTERNAL AND EXTERNAL

Stargard meets the requirements of the DDA
(BS 8300, Building Regs. Part M 2004)

- **Comfortable to Grip**
(42 or 50mm diameter handrail)
- **Warm to the touch**
(*the original "warm to the touch handrail"*)
4mm thick PVC sleeving.
- **Robust**
Galvanised a steel tube core and stainless steel fittings.
- **Tactile Handrail**
In a contrasting colour if required.
- **Tapping Rails**
Can be incorporated in the design.
- **A range of colours**
Black, white, grey, blue, green, yellow, red and metallic silver are held in stock .
- **Design Options**
Stargard DDA handrail can also be used on our Stronghold stainless steel system as shown in the picture below right.

Stargard has the added benefit of very low maintenance

See main **Stargard** product brochure for more details

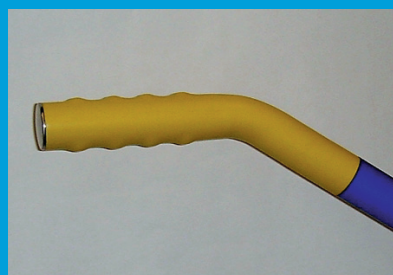

January 2009

CI/SfB (34)
