

Citadel

“The traditional richness of brass”

Brass handrail and Balustrade system

Citadel is a brass balustrade and handrail system which is designed around 50 mm diameter or 38 mm diameter brass tube. Citadel is bright polished after manufacture. A clear lacquer coating can be applied which removes the need for frequent polishing or when it is to be used outdoors.

The balusters (posts) are 50 mm diameter brass tube as standard, however the brass handrail can be fitted to a range of balusters if required.

Glass infill panels or mid-rails are also available.

A complete design, manufacture and Installation service.
