BPI GLASSRAIL

A modern, sleek and sophisticated balustrade alternative, BPI Glassrail is manufactured with the highest quality toughened glass, ensuring safety and durability.

BPI Glassrail can be installed without a handrail, offering a seamless and visually appealing look or with a handrail, in a range of material and finishes, including stainless steel, PVC sleeved or powder coated.

If installed with a handrail, BPI Glassrail is compatible with a range of other products including BPI Illumine, our LED integrated system or BPI Stargard, our 'Not Cold to Touch' DDA handrail.

Designed with safety at the forefront, BPI Glassrail is the ideal solution for commercial, housing or private developments, offering a seamless look allowing maximum light and minimal visual disruption.

Crafted from **high-grade toughened or laminated glass**

Hygienic, easy to clean and low maintenance

Handrail available in a range of finishes, including **powder coating, satin and bright**

Sleek and modern, allowing for maximum **light penetration**

Compatible with **BPI Illumine - LED integrated handrails**
