BPI SENTINEL

Add a modern and sleek touch to handrail projects with BPI Sentinel, a high-quality and robust stainless steel handrail and balustrade system.

Compatible with a range of modern filling solutions including:

- Toughened Glass Panels
- Perforated Sheet Metal
- Stainless Steel Wire
- Woven Metal
- Running Rails
- Custom Designs

All of our stainless steel handrails are available in Ø42mm and Ø50mm and are compatible with BPI Illumine and BPI Stargard, both of which are ideal solutions for use outdoors.

BPI Sentinel Stainless steel handrail is manufactured from 304 for internal and 316 for external applications, and is available in a range of finishes including:

- Powder Coating
- Satin Finish
- Mirrored Finish

Crafted from **high-grade stainless steel** (304 and 316) based on application

Hygienic, easy to clean and low maintenance

Compatible with a range of modern and sleek panel infills, including **glass or mesh**
